LOCAL EXCHANGE SERVICE

1. General

This tariff applies to Local Exchange Access Service offered by Southwestern Bell Telephone Company (SWBT) in the State of Texas and is governed by the General Exchange Tariff, which is hereby made a part of this tariff. Unless otherwise specified, the charges quoted are for a period of one month, are payable monthly in advance, and entitle the customer to Local Exchange Access Telephone Service as described in this tariff.

1.1 Distance Learning

Upon submission of an affidavit that complies with the requirements of Public Utility Commission of Texas Substantive Rule §23.93, 16 T.A.C. §23.93, an educational institution (as defined in Texas Education Code, Sections 11.32, 11.33 and 61.003) may obtain a 25% discount on the tariff rate for any tarified service, except customer-specific contracts, that is used predominantly for distance learning purposes. Services qualifying under the provisions of Substantive Rule §23.93 will receive the 25% discount on each tarified rate.

(N)

(N)

2. Application of Tariffs

- 2.1 Rates for Local Exchange Access Service are based on the number of local exchange access arrangements within the local calling area of an exchange. Where the local calling area includes different exchanges of SWBT or SWBT and another local exchange company (LEC), the total local exchange access arrangements of all exchanges involved are used to determine the basis for rate grouping. Rates for the various Exchange Rate Groups are shown in 3.1.1 and 3.1.2, following, in this tariff. Exchange Rate Groups are listed below.

Exchange Rate Group	Total Local Exchange Access Arrangements In Local Calling Area
1	1 - 8,000
2	8,001 - 30,000
3	30,001 - 60,000
4	60,001 - 200,000
5	200,001 - 400,000
6	400,001 - 800,000
7	800,001 - 1,500,000
8	1,500,001 - and over

The Texas Public Utility Commission (Commission) shall be informed and amended tariffs filed to change an exchange to a higher or lower Exchange Rate Group after such exchange has maintained consistently for twelve (12) months local exchange access arrangements below or above the range of its Exchange Rate Group. Furthermore, in those instances when the number of local exchange access arrangements has remained above or below the range by two (2) percent for six (6) months or more for an exchange, the Commission shall be informed and amended tariffs filed to change the exchange to a higher or lower Exchange Rate Group. Filings made pursuant to this tariff provision shall be subject to approval by the Commission under Section 43(A) of the Public Utility Regulatory Act.

The rates and services provided in this tariff are regulated and approved by the Commission in compliance with the Public Regulatory Regulatory Act and the rules adopted by the Commission.

Subsequent compliance tariff filings will be made as necessary to implement the provisions of the Stipulation as authorized by the Commission's Order in Docket No. 8585.

Tel-Assistance Service will be provided to those customers meeting all of the following criteria: (T)
- (i) The applicant must be a head of household. (D)
